

# AGILE STAFFING SOLUTIONS FOR GLOBAL INFRASTRUCTURE LEADER

## SITUATION

Nesco was engaged by a large global leader of critical infrastructure solutions, because the company was facing two primary business challenges. First, they were experiencing geographic diversity with their operations spanning multiple regions and facilities.

Second, they were not deploying new hires quickly enough to meet the escalating demand, resulting in a substantial backlog of orders, and leaving the company struggling to keep up with customer expectations. The client needed an agile and dependable staffing partner capable of scaling to meet their diverse labor needs as well as source, onboard, and deploy new hires rapidly.

## SOLUTION

Nesco collaborated with the client to effectively address their challenges. First, we harnessed our national presence and extensive network of 90+ local branch locations to source and supply contingent staffing across 20 locations, offering a diverse talent pool spanning a spectrum of job categories including Light Industrial, Administrative/Clerical, IT, Engineering, Talent Acquisition, Human Resources, Accounting and Finance, and other professional roles.

Second, Nesco displayed its flexibility by swiftly onboarding and deploying over 750 contractors to meet the client's shifting contingent labor requirements ensuring minimal disruptions to the client's critical business operations.

"I always get good guidance and awesome service from Nesco.  
I trust them implicitly..." Director, Electronics Manufacturing

## RESULT

The partnership between the client and Nesco yielded impressive results including:

- **750+ contractors** successfully placed at 20 client facilities across the U.S.
- The client experienced **reduced downtime** and **increased operational efficiency**.
- Over **125 contractors remain actively engaged**, demonstrating the long-term sustainability of our partnership.
- This partnership exemplifies Nesco's capacity to provide **rapid, multi-region, and multi-site support** to a high-volume temporary contingent labor platform for a myriad of roles. The success in **supplying more than 750 contractors in 20 locations** and maintaining an **active workforce of 125+ contractors** underscore our commitment to deliver quick, effective results for our clients.
